We're On A Mission - Rise Up Now

Let each voice part repeat a few times before adding the next one. Everyone should stamp and clap if they can do so while singing.
Voice 4 starts on bar 2 of the pattern instead of on bar 1 - get a strong singer to lead the start of this line if possible.
Once it gets started at the right point it should keep going without much difficulty.
After all the lines have started, singers can keep to one part or move between them.
